PROFESSIONAL SUMMARY

Final-year B.E. Artificial Intelligence and Machine Learning student with hands-on experience building and deploying full-stack and AI-powered applications. Experienced in developing real-time systems, AI/NLP solutions, REST APIs, and database-driven applications. Strong foundation in problem solving, software development, and applying AI/ML concepts to real-world healthcare and e-commerce use cases.

EDUCATION

B.E. – Artificial Intelligence and Machine Learning , GM Institute of Technology, Davangere	2023 – 2027
PUC – , Mandaara PU College, Davangere	2021 – 2023
School – , Vidyadayaini School, Harihar	2021

TECHNICAL SKILLS

Languages	C++, Python, JavaScript, SQL
Frontend	React.js, HTML5, CSS3, Tailwind CSS
Backend	Node.js, Express.js, FastAPI, REST APIs
Databases	PostgreSQL, MongoDB, Supabase
AI/ML	NLP, Generative AI, DistilBERT, Sentence Transformers
Tools	Git, GitHub, VS Code, Postman, Vercel

PROJECTS

CuraNode – AI Emergency Triage & Hospital Management System [Live Demo](#)

- Developed and deployed a full-stack emergency healthcare platform using React.js, FastAPI, Supabase, Socket.io, and Google Maps/Leaflet for emergency coordination.
- Implemented Emergency Mode with live patient location tracking, emergency request initiation, ambulance journey tracking, and hospital coordination.
- Built AI-powered symptom assessment and intelligent hospital ranking based on location, availability, emergency capability, and estimated waiting time.
- Implemented real-time patient and hospital dashboards with live location updates, emergency request management, and journey status tracking.

ReviewTrust AI – Fake Product Review Detection Platform [Live Demo](#)

- Developed an AI-powered application using NLP and transformer-based models to identify potentially fake e-commerce reviews.
- Implemented review authenticity classification using DistilBERT and semantic similarity analysis using Sentence Transformers.
- Developed a Trust Score system and interactive analytics dashboard to present review authenticity insights.

ACHIEVEMENTS

- Top 5 Finalist – Alpha Connects 24-Hour Hackathon for developing ReviewTrust AI.
- Participated in multiple hackathons focused on AI, full-stack development, and real-world problem solving.
